

PECOS SHIPS
IN CATTLEHeavy Shipments Are Made
From El Paso to Range
in Pecos County.

Pecos, Texas, Nov. 22.—Heavy shipments of cattle from El Paso have been made to Pecos during the past week. The greater portion of the cattle shipped in were sent out to ranches for pasturing.

Among the shipments were four cars of stock cattle shipped from El Paso by J. P. McGary to be placed on his ranch at Toyahvale.

Anderson & Robinson have shipped in eight cars of cattle from El Paso, which have been placed on their pastures at Saragosa.

Seven cars of cattle from El Paso were unloaded here by Finley & Anderson and were put on pasture near the river. The same firm shipped in 12 cars of cattle from El Paso over the Texas & Pacific. Ten cars of the last shipment went to Collier & Loebe, who shipped them to range at Hoban; three cars went to Ligon & Merzian, who sent them to their Saragosa range and the balance were sent to the High Mountain pasture on the Pecos river.

SELL 2000 THREE YEAR
OLD MULES AT \$67.50

Amarillo, Texas, Nov. 22.—At a price of \$67.50 around, Trigg & Shelton have sold 2000 three year old black mules to Arnold Bern, of Peabody, Kansas, to be fed on the Bern farm there. One thousand of the lot have been sold for later delivery.

Fourteen hundred calves, purchased by Miles and Albert Meyers from the Van Natta brothers, Y.U.U., ranch at Hamsell, have been received here.

Julian Bassett has sold 1000 heifer yearlings at \$45 to Terry Thompson.

Why "Anuric" Is an
Insurance
Against Sudden Death.

Before an Insurance Company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of indigestion, constipation, etc. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience—such as Dr. Pierce of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Send him 10 cents for sample package of his new discovery, "Anuric." Write him your symptoms and send a sample of urine for test. Experience has taught Dr. Pierce that "Anuric" is the most powerful agent in dissolving uric acid, as hot water melts sugar; besides being absolutely harmless it is endowed with other properties that preserve the kidneys in a healthy condition by thoroughly cleansing them. Being so many times more active than lithia, it clears the heart valves of any sandy substances which may clog them and checks the degeneration of the blood-vessels, as well as regulating blood pressure. "Anuric" is a gentle laxative and flows over for all big meat eaters and those who deposit lime-salts in their joints. Ask the druggist for "Anuric" put up by Dr. Pierce, in 50-cent packages.

STRENGTH AND BEAUTY
Come with Dr. Pierce's Golden Medical Discovery. This is a blood purifier and a tonic that starts the liver and stomach into vigorous action. It thus assists the body to manufacture rich red blood which feeds the heart, nerves, brain and organs of the body. The organs work smoothly like machinery running in oil. You feel clean, strong and vigorous instead of tired, weak and faint.

CUT THIS OUT

OLD ENGLISH REMEDY FOR CATARRH
OF THE EARS, NOSE AND THROAT.

If you know of some one who is troubled with Catarrh of the Ears, Nose or Throat, or ordinary catarrh of the nose, formula and hand it to them and you will have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires a constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate passages and force the disease into the middle ear which frequently means total deafness, or else the disease is driven down the throat, inflaming the lungs which is equally as dangerous. The following formula which is used extensively in the damp climate of the south, is a constitutional treatment and should prove especially efficacious in sufferers in this climate under more favorable climate conditions.

Secure from your Druggist 1 ounce of Parmit (Double strength). Take this home and mix it in a pint of water, add a few drops of granulated sugar, stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Clogged nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Parmit is used in this way as it acts directly upon the blood and mucous surfaces of the system and has a slight tonic action that facilitates the recovery of the patient. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh should give this treatment a trial.—Adv.

Hair Curling Troubles
Are Over—Read This!

Girls, have you heard about the newest way to curl the hair? If you have not, you must, cut out these simple directions and try this wonderful method to-night before you go to bed. Just procure a new tooth brush and a few ounces of plain liquid salicylic from your druggist. Apply liberally to the hair with the brush, to moisten the hair from root to tip. Tomorrow morning you will be quite astonished when you find that your hair has dried in such lovely waves and curls they appear altogether natural, instead of having been artificially arranged.

Your hair will have of course more "body" and flourish than when the drying, astringent salicylic was used. It will appear cleaner and brighter, for salicylic has proved equally desirable as a cleansing hair wash. You'll find it pleasant to use, and it will leave no sticky, greasy or sticky trace.—Adv.

CARLSBAD MEN
EAT FAT CALVESLarge Numbers Bought for
Feeding on Ranches of
the Project.

Carlsbad, N. M., Nov. 22.—The cattle market has been unusually active in and around Carlsbad the past month. A large number of calves have been bought to be fattened at feed lots on the Carlsbad Project, and numbers of fat cattle have been shipped out from the various ranches in the Carlsbad territory, in preparation for the winter season.

C. N. Jones and E. T. Carter bought a thousand head of calves from the Cowan, of the Pecos and Toyah country, at \$25 around. They are almost entirely all heifers and will be prepared for market next spring. Should the market warrant, however, they will be held for stock purposes. They are being pastured in the Loving district, and are mostly held on the Tip-top farm.

The Dearborn Development company has purchased 400 calves from John Barber, which were unloaded and fully marked at the local pens. These calves are the pick of the year's branding, and will be held on the company lands southeast of Carlsbad.

Stu Jones has sold his year's branding of black mulley calves to his brother, Bill Jones, who is holding 300 calves at Carlsbad, feeding them hay and kafir corn.

Sells Old Cows at \$45.

Paul Arns recently sold 350 head of old cows to Monument parties. The price received was \$45 around. It is said that he sold a hundred more cut-backs for \$45.

W. H. Lindricks, Morgan Livingston and Benson brothers shipped around 1200 head of fat cows from the Avalon pens, six miles north of Carlsbad, to the local pens.

Georgia Williams has bought of the Sloan outfit 300 heifers. Williams received part of his purchase at Pecos, the remainder of the month. His ranches are northeast of Carlsbad.

Held 400 Steers for a Buyer.

The Livingston have 400 head of steers of mixed ages on the Dr. Quirey place, three miles south of Carlsbad. They are being held for a buyer.

John Irribone recently shipped a carload of fat ewes to Kansas City. Irribone has a large outfit in the mountain district west of Carlsbad, and is considered one of the largest individual sheep owners in Eddy county.

The Thayer, Gordon and Dolph Shattuck outfit has purchased a carload of kafir corn to feed saddle horses and old stock during the spring months.

GOV. STURRS SHIPS 27 CARS
POLLED ANGUS CALVES

Carlsbad, N. M., Nov. 22.—A shipment of 22 cars of Polled Angus calves was made from the stock pens here recently by the Polled Angus Cattle company of which Gov. Sturrs is the head. This was the first shipment from the Stubbs ranches in Eddy county and the calves were shipped to the Fort Worth market. The calves were purchased by Harry Berdine of Fort Worth and were fine specimens when they left here being shiny of coat and in perfect condition.

Winter feeders are expected to arrive in the Pecos valley. A shipment of 400 calves for wintering on the P. & G. Tractor and the Dearborn Development company ranch. A herd of calves will also be wintered on the farm of Dr. F. P. Dopp and will be brought here Dec. 1.

MIDLAND CATTLE WOMAN
GETS \$83 AROUND FOR COWS

Midland, Texas, Nov. 22.—Mrs. M. J. Riggs has received \$83 around for 40 cows and calves of shipment of four cars of her black mulley. The prices of others of the shipment were satisfactory to Mrs. Riggs.

Shipments of cattle during the past week from Midland included six cars of cows to Fort Worth by the Scharbauer Cattle company; three cars of cows to Fort Worth by J. T. Ragadine; five cars of steers to Fort Worth by Scharbauer Cattle company; four cars of cows to Fort Worth by Mrs. M. E. Riggs and one car of horses to Snyder, Texas, by H. A. Massey.

VICTORIO LAND AND CATTLE CO.
SHIPS 100 HEAD OF YEARLINGS

Silver City, N. M., Nov. 22.—The Victorio Land and Cattle company has shipped a carload of yearlings from the Walnut Wells district and another 1200 black mulley cattle have been brought to the Walnut Wells district by Mr. Benton, who owns large holdings in that district.

These Mexican cattle will be wintered at the San and El then be sold State senator B. F. Pankey has also been here this week arranging for a shipment of cattle from Grant county.

YAVAPAI HAS LARGEST
FENCED AREA IN STATE

Prescott, Ariz., Nov. 22.—Yavapai county now boasts the largest fenced area within the state of Arizona. It is "Raza Flat No. 2," in the northeast corner of the county, 13 miles square. Dr. B. Perrin and his son, Milo M. Perrin, of Williams, are the owners. For years the Perrins have used this tract as a cattle range, the water supply being too limited for farming. They have now fenced it with three strands of barbed wire, in order to keep the stock of others off their private range.

MANY CATTLE BEING SHIPPED
FROM DEMING TO PASTURE

Deming, N. M., Nov. 22.—Cattle shippers continue to ship from here to the northern and western markets. The Hudson Brothers, of Carlsbad, shipped 1000 head of calves to the Hudson Brothers, Williams and George Watkins sold 500 head of cattle between them during the past week.

State senator B. F. Pankey also sold nine cars of cattle here and Hyatt Brook bought six cars of Herefords at Willcox and sold them to Stone Whitburn who shipped them to Turquoise, Ariz.

SILVER CITY SELECTED FOR
NEXT MOHAIR CONVENTION

Silver City, N. M., Nov. 22.—The National Mohair Growers' association will meet in Silver City in 1914. This was the result of the invitation sent by the chamber of commerce to the San Francisco convention of the association.

This is the largest mohair growers' association in the country and will bring some of the biggest breeders of mohair sheep to Silver City next year.

Woman Proves She Was
Right When She Claimed
She Swallowed a Knife

Chicago, Ill., Nov. 22.—Mrs. Elizabeth Hochberger has proved she was right when she contended that in the delirium of typhoid fever, she had swallowed a table knife. Doctors leached at the imagination of the young woman, but finally, just to satisfy her, they made an X-ray photograph of her stomach Monday.

The resulting picture showed a ten-inch knife lying in a horizontal position in Mrs. Hochberger's stomach. She will be operated on to remove the obstruction.

PRICKLY PEARS
GOOD FOR COWSDepartment of Agriculture
Finds Them Excellent
Food for Dairy Cows.

Washington, D. C., Nov. 22.—The prickly pear, specialists of the United States department of agriculture say, has now been demonstrated to be a good and palatable feed for dairy cows. Prickly pears have been fed to cattle in some extent in Texas and Mexico for many years, but their value as a feed has not been fully appreciated. Recent experiments by the department of agriculture have shown, however, that this feed can be used much more extensively and can form a much larger proportion of the ration than was believed possible heretofore.

Under proper climatic and soil conditions the prickly pear is a perfectly practicable farm crop in Arizona, New Mexico, Texas, the average annual yield for the first two years' growth from cuttings was about 40 tons, and at San Antonio about 25 tons an acre. After the first two years a yield of 50 to 100 per cent more can be expected. Irrigation is unnecessary and the cost of growing the crop is therefore small in comparison with the tonnage produced.

Contains Ten Percent Dry Matter.

The prickly pear, it is found, contains approximately 10 per cent of dry matter, the remainder being water. If it is assumed that the nutritive value of different kinds of feed vary in direct proportion to their content of dry matter, one pound of sorghum hay equals 15.3 pounds of prickly pear when the latter is fed in large quantities, and 18.1 pounds when fed moderately. One pound of sorghum silage was found to be equal in nutritive value to one pound of sorghum hay and one pound of cottonseed hulls equals 2.5.

From 50 to 100 pounds of prickly pear, 2.5 of sorghum and 1 of cottonseed meal a day made a maintenance ration for a Jersey mature cow when dry. If no sorghum hay is available, the amount of prickly pear should be increased to 110 pounds and the cottonseed meal to two pounds. Experiments have shown, however, that to feed not more than from 60 to 75 pounds of prickly pears a day. When 120 to 150 pounds were fed, excessive scouring followed, in addition the laxative effect of the feed made it extremely difficult to keep the stable in a sanitary condition.

Cows Like Prickly Pear.

In general it may be said that cows like prickly pear and eat it with relish. The feed, according to the experts, causes an increase in the quantity of milk produced but a slight decrease in the total production of butter fats. This decrease, however, is pronounced as the quantity of prickly pear in the ration is increased. Butter produced on a prickly pear ration is highly colored but neither its flavor nor the keeping quality of the milk is noticeably influenced. From the experiments it is noticed, however, that cows fed upon prickly pears appear to be more sensitive to "northern" than those which receive a dry roughage. The greater the quantity of the plant consumed the more the milk production fell off during these months. On the other hand the feeding of prickly pears appeared to have no influence on the offspring of the cows nor on the condition of the mothers after birth.

Cost of Feeding Prickly Pear.
The cost of feeding prickly pear will depend naturally on local conditions. There is no great difference between the spiny and the spineless varieties in their values as feed, but the cost of harvesting the latter is less. On the other hand the spiny varieties yielded a larger tonnage to the acre in Brownsville and are not so susceptible to insect depredation. They are also more hardy and can be raised on a much larger area. The cost of sinning the spines off was approximately 50 cents a ton. The most common method of removing them is by using a machine specially constructed for this purpose being on the market.

350 CATTLE ON ALPAPPA.

East Grand Plains, N. M., Nov. 22.—Alfalfa feeding of 350 cattle has started here. A total of 450 head of cattle were turned out on the Young ranch.

For Piles

Pyramid Pile Treatment Is Used At Home and Has Saved a Vast Number from the Horror of Operation.

Don't permit a dangerous operation for piles until you have seen what Pyramid Pile Treatment can do for you in the privacy of your own home.

No case can be called hopeless unless it has been tried and has failed. Letters by the score from people who believed their cases hopeless are now testifying that they freely breathe the joy of the writer.

Test Pyramid Pile Treatment yourself. Either get a box—price 50c—from your druggist or mail the coupon below right away for a perfectly free trial.

The Standard Skin Remedy

40,000 ACRES
BOUGHT BY GRAYEl Paso Cattleman Acquires
Pecos Cattle Ranch;
1000 Herefords.

George G. Gray, of El Paso, has bought 40,000 acres of ranch land in Pecos county from F. G. Graham, of Fort Worth, and will make this his headquarters ranch. The deal also included 1000 head of Hereford cattle and the price paid is said to have been \$200,000.

Mr. Gray was induced to come to El Paso by local cattlemen and he established his headquarters here and he has become one of the most extensive operators in cattle in this section. The 40,000 acres also included ranch houses, fences and other equipment on the place. The ranch is completely surrounded by a well proof fence of five wire.

Mr. Gray will move his present herd of Herefords from Monahans to the Pecos county ranch, which is near Fort Stockton and will make it one of the biggest blood cattle ranches in the southwest.

MANY CATTLE SHIPMENTS
BEING MADE FROM ENGLE

Engle, N. M., Nov. 22.—Thirty-five cars of cattle were shipped from here last week by W. S. Hopewell, of Albuquerque, to Lamar, Colo., where they will be finished for killing. They were bought by George A. Dodd and were fine animals.

James Bros., B. F. Pankey, Calhoun and Miller, George and William Whitshire and Cliff Crews also shipped cattle out of here recently. Charles Graham and son shipped from Engle 250 head of cows and calves, George Dodd also buying these.

Saturday ten cars went out of here for Kansas pasture lands. They were bought by Moore & Brookshire and will be fattened.

BIG SHIPMENTS OF CALVES
MADE FROM PECOS DISTRICT

Pecos, Tex., Nov. 22.—Shipments of calves from Pecos have been heavy during the past week. Among the shipments were 11 cars by Gilchrist Bros. to Childrens, 12 cars to Fort Worth by Espey, Schultz and 11 cars by G. T. Reynolds to Midwater, Tex.

LETTERS TO THE
HERALD

(All communications must bear the signature of the writer, but the name will be withheld if requested.)

REMEMBER EL PASO QUAKE.

Denning, N. M., Nov. 21.
Editor El Paso Herald:
I recently read your article under the heading "Courthouse Truss Being Cut Down." I can back up the statement of Judge T. A. Falvey in regard to the earthquake, as I was one of the jurymen. There was some excitement and if I remember rightly the judge was not one of the rear guard in the scramble for the door.

I left there one year later, but have read the Herald whenever it was possible and am a regular subscriber. I am going to try to make a visit there during the holidays to see the vast improvement El Paso has made and get acquainted with some of the old boys.

E. O. Drzer.

THE UNIFORM IN CHURCH.

Fort Bliss, Texas, Nov. 21.
Editor El Paso Herald:
The undersigned, a humble member of the United States army, has read often the letters appearing in your columns from some of his comrades in reference to the treatment accorded them by the people of this community.

At times I often speculated if this could be true and as far as I was concerned, was on the lookout for some of this alleged mistreatment. None came my way until finally one Sunday night, feeling that I was in need of good spiritual advice, I induced some of the members of the infantry (one a M. A. the other a civil engineer; boys who joined the army anticipating trouble with Mexico and men who were more than willing to offer their lives for Old Glory) to accompany me to some church and listen to a sermon, a good sermon and hear some excellent singing.

On arrival at the church (which I prefer to remain nameless) we were escorted to a pew far removed from the pulpit. Being in uniform, of course our presence was noted, and a great many people stared in our direction, whether from idle curiosity or otherwise, I am unable to say. Upon the completion of the service, a man, clothed in the ministerial garb, came to us and expressed his appreciation. He expressed the wish that we come often, but believed it would be best to come in civilian attire. We all differed from him at once and a slight discussion arose, which ended amiable enough, but we left the tabernacle feeling better to return.

A night or so ago I attended the same church again. This time I was in civilian clothes. The same man of the gospel welcomed me to his church. He recognized me at once, shook hands, expressed gratification at my coming, but quickly added that he was glad I had left the uniform at home. At this remark I left the church, feeling that it was no place for a soldier or a soldier's son.

Oh, man of the gospel, is a soldier any worse than the man of the world? Is his maker the man to whom we are all alike? Oh, man of the gospel, what are you preaching—the words of your Lord? You touch the sin of the country and your flag, or the discrimination of the man in khaki?

John C. Schurig, B. S. C. A.,
Quartermaster Corps, U. S. A.

OPHELIA

The arrival of a baby in the household completely changes the entire aspect of the future. But in the meantime, during the anxious period of expectancy, there is a wonderful remedy known as "Mother's Friend" that does wonders. It is for external use, relieves the pains of muscle expansion, soothes and quiets the nerves, extends its influence to the internal organs and removes to a great extent the tendency to worry and apprehension.

It is a natural treatment, safe for the mother, has no drug effect whatever and for this reason must exert a most beneficial influence upon those functions directly connected with motherhood. In a very interesting book the subject is freely discussed and a copy will be mailed free to all expectant mothers by Bradfield Regulator Co., 436 Lamar Bldg., Atlanta, Ga. Get a bottle of "Mother's Friend" today of any druggist. Use as directed and you will then know why mothers for nearly half a century have used and recommended this splendid aid to motherhood. Their letters are messages of cheer, that breathe comfort in every word.

Good Roads
With Especial Reference to
Concrete

IN URGING the use of concrete for El Paso County "good roads," particular stress is laid upon a properly designed and scientifically constructed roadway. Taking the standard of concrete roads as required in other states, if this form of roadway is accepted, El Paso County will have an asset of huge dimensions.

"Good roads" should not be confusing. There can be but one definition of "good roads." It is, a hard surfaced highway upon which wheeled traffic can move, in every condition of weather, at a minimum expenditure of energy and money.

Concrete Is the Answer

WHILE concrete roads have been steadily increasing in favor the past ten years, it is probably within the last twelve months that this material has really reached its proper classification—first. In California particularly, where climatic conditions are very similar to El Paso, concrete roads are being built almost to the exclusion of other kinds.

No Mistake Will Be Made

If concrete is adopted for El Paso County, no mistake will be made. This refers not only to obtaining the best possible roadway, but securing it for very little money to commence on and requiring very little money to maintain it. This means, of course, a carefully laid road under precise specifications.

Cost—First and Last

The approximate first cost of a concrete road, eighteen feet wide, scientifically constructed, with "El Toro" brand cement as a binder, is \$10,000 to \$12,000 per mile. The up-keep will possibly average \$20 to \$30 a year. A road similar in construction to El Paso's best paved district would cost, approximately, \$18,000 per mile. The up-keep would be many times that of a cement road. Applying simple mathematics, there is no room for argument.

Concrete is not an experiment. "Time" is its trade mark. Over 30 centuries attest to the permanence of concrete.

From the Publicity Department of the Southwestern Portland Cement Co. Manufacturers of "El Toro" Brand Cement. El Paso, Texas.

MORE Truth
Than Poetry

BY JAMES J. MONTAGUE.

The Difference.
In America the refusal of a surgeon to operate to save a defective child arouses wide discussion and bitter controversy. In Europe the man calmly butchering the best and bravest and thanking heaven for strengthening their arms to do it.

They All Have Their Opinions.
Well, what does YOUR postmaster think about it?

Just a Little Late.
The man who killed the Austrian archduke and thereby started the great war has been killed. To paraphrase Shakespeare: "If 'twere done when it was done, 'twere sweet, it had been done a little more quickly."

Justifiable Uneasiness.
No wonder justice hunters are fighting that Nebraska endorsement for the presidency. Look what happened to the last Nebraska endorsement, and look how many times it happened!

Or Gorilla Warfare, Possibly.
The report that the Babuna Pass has been threatened sounds as if the Bulgars were carrying the war into Africa.

They Are Useless When Stewed.
Don't let your ferns drink too much.—Evening Mail.

Probably.
Now Northcliffe has driven Winston Churchill to the trenches he will doubtless shout "Forward!" at him.

Business Asmen.
Crooks Get \$250 From Movie Theater.—Leadline. They know when the money hit.

Revenge!
Taft wants Ruck to run for president. Ruck wanted Taft to run for president in 1912. He did, and look what happened to him!

There's a Crowd, Anyway.
Victor Morduck has gone to Europe leaving the Progressive party reduced to Theodore Roosevelt, George W. Perkins and Cecil Lyon.

Let Them Use a Little Discrimination.
Country postmasters are natural enemies, but they do well hereafter to confine their gossip to people of their own villages.

Embarrassing Position.
Nowadays a weather forecaster does not care to prophesy high winds for fear the administration will think he is doing press agent work for William Jennings Bryan.

Let Them Beware.
Thomas W. Lawson's house has been robbed by burglars. How those burglars will rue it when they read his next magazine article!

SISTER SAYS BROTHER HIT HER OVER EYE WHILE DRUNK.
Augusta San Ruman, a merchant of 113 Copia street, was arrested by the police Monday night on complaint of his sister, Hermana San Ruman. She alleged that her brother, while intoxicated, struck her over the eye cutting a deep gash and also bruised her on the head and body. He was charged with assault at the police station.

MESSANGER BOY AND AUTO COLLIDE; BOY KNOCKED OFF.
Jose Peren, a messenger boy, was struck by an automobile claimed to have been driven by W. S. Hogan Monday afternoon near the intersection of Broadway and Overland streets. The boy was knocked from his bicycle and bruised. The bicycle was wrecked.

TWO MEN ALLEGED TO HAVE GAMBLING OFFERS WITH THEM.
W. B. Singleton and J. B. Smiley were arrested by the police as vagrants Tuesday morning. They were alleged to have had gambling outfits in their possession.
